

ERNEST S. “MIKE” DELANEY III FOUNDATION SCHOLARSHIP

Application Information

The Nucor Foundation was established as a non-profit corporation for charitable and educational purposes including the awarding of scholarship grants to deserving men and women. It is the belief of the Foundation that the further economic and social progress of the nation is built upon the education of its citizens. The awarding of scholarships is seen as a way to encourage personal as well as national and community development. Although the Foundation receives substantial contributions from Nucor, the Foundation is operated completely separate from Nucor and is not subject to its control.

Nucor and its affiliates are manufacturers of steel products, with operating facilities primarily in the U.S. and Canada. Products produced include: carbon and alloy steel – in bars, beams, sheet and plate; hollow structural section tubing; electrical conduit; steel piling; steel joists and joist girders; steel deck; fabricated concrete reinforcing steel; cold finished steel; steel fasteners; metal building systems; steel grating; and wire and wire mesh. Nucor, through The David J. Joseph Company, also brokers ferrous and nonferrous metals, pig iron and HBI/DRI; supplies ferro-alloys; and processes ferrous and nonferrous scrap. Nucor is North America’s largest recycler.

Mike DeLaney (1948-2017) was born and raised in Charlotte and attended local public schools, graduating from Myers Park High School in 1966. He graduated from Duke University with honors and attended law school at the University of North Carolina. Mike returned to Charlotte to practice law and served as trusted advisor and friend to the Nucor team. His wise counsel over the years greatly contributed to Nucor’s success. Mike served on the Nucor Foundation Scholarship Selection Committee for many years, as did his father before him. Mike’s friends and family want to honor him by awarding this scholarship in his memory.
