

FOUNDATION Scholarship for Children of Nucor Teammates

FOUNDATION Scholarship Overview

Nucor Foundation was established as a non-profit corporation for charitable and educational purposes including the awarding of scholarship grants to deserving men and women. It is the belief of the Foundation that the further economic and social progress of the nation is built upon the education of its citizens. The awarding of scholarships is seen to encourage personal as well as national and community development.

Nucor and its affiliates are manufacturers of steel products, with operating facilities primarily in the United States, Canada, and Mexico. Products produced include carbon and alloy steel – in bars, beams, sheet, and plate; hollow structural section tubing; electrical conduit; steel racking; steel piling; steel joists and joist girders; steel deck; fabricated concrete reinforcing steel; cold finished steel; precision castings; steel fasteners; metal building systems; insulated metal panels; steel grating and wire and wire mesh. Nucor, through The David J. Joseph Company, also brokers ferrous and nonferrous metals, pig iron and hot briquetted iron / direct reduced iron; supplies ferro-alloys; and processes ferrous and nonferrous scrap. Nucor is North America's largest recycler.

Although the Foundation receives substantial contributions from Nucor, the Foundation is operated separately from Nucor and is not subject to its control. These scholarships are, for the most part, limited to children of Nucor employees in recognition of the support which Nucor gives to the Foundation.
